La créativité en cadeau

BV Cert. 6324931

2023

« COMMENT FAIRE PLUS AVEC MOINS ? »

Chers clients,

Nous sommes heureux de vous présenter le catalogue 2023 et notre large gamme de produits : des incontournables, des nouveautés et des innovations majeures.

Les fleurs et les plantes reprennent une place prépondérante dans nos vies et nos intérieurs. Ce retour à la nature se traduit dans nos produits avec une volonté toujours plus grande de sublimer ces végétaux.

Inspiration

Nos couleurs et décors sont travaillés un an à l'avance et nous sommes heureux de vous présenter une large gamme de produits tendance et dans l'air du temps afin de répondre aux attentes des consommateurs finaux.

Innovation

Nous mettons également la recherche et le développement ainsi que l'amélioration continue au cœur de notre démarche.

En effet, tous nos produits sont pensés, repensés et pour être plus éco-responsables.

Nous sommes fiers de présenter le papier plissé qui a remporté le prix Innovafleur en septembre 2022.

Un service sur mesure

Un service de personnalisation est également à votre disposition afin de faire de nos produits les vôtres. En passant de la matière, au procédé d'impression, que ce soit pour des rouleaux, des feuilles, des cônes, des sacs, les possibilités sont multiples. Satisfaire les besoins de nos clients est notre priorité. Retrouvez toutes les possibilités de personnalisations page 20.

Notre implication écologique

Vous le savez, Clayrton's œuvre depuis plus de 16 ans en faveur de l'environnement et ce de façon régulière, globale et cohérente.

C'est pourquoi, nous continuons de nous engager avec une vision affichée aussi en 2030 :

- Sur tous les segments de l'emballage, nous proposerons une alternative de produits 100% papier certifiée OK compost.
- Nous nous engageons à ce que 100% des matières premières utilisées à la production soient biosourcées ou recyclées,
- Nous réduirons de 50% nos émissions carbone (base : bilan carbone de 2019).

Nous vous souhaitons une bonne lecture !

«DOING MORE WITH LESS»

Dear Clients,

We are pleased to introduce our 2023 catalogue with a wide range of products: must-haves, new products and major innovations.

Flowers and plants have taken a prominent place in our lives and interiors.

This return to Nature reflects itself in our packaging with an increasing desire to sublimate these products.

Inspiration

Our colors and patterns are designed one year ahead, and we are pleased to introduce a complete range of trendy and fashionable solutions in order to meet final consumers expectations.

Innovation

Research & Development is in our DNA and we have put innovation at the heart of our approach.

Therefore, all our products are thought through and re-visited regularly to make sure they stay as eco-friendly as possible.

We are proud to present the pleated paper that won the Innovaflour award in September 2022.

A tailor-made service

At Clayrton's, you will also benefit from customization services allowing you to make our products yours.

Whether it is for rolls, sheets, sleeves, bags, the possibilities of personalizing our packaging are numerous. Satisfying our customers' needs is a priority for us. You can find all the possibilities of customization on page 20.

Environmental commitments

As you may know, Clayrton's has been committed to the environment for over 16 years in a global and coherent way.

This is the reason we have decided to communicate clearly on our vision statements for 2030:

- We will ensure that 100% of the raw materials used for manufacturing will be bio-based or recycled.
- We will offer a range of 100% paper products (sleeves, rolls...) certified «Ok Compost Home».
- We will reduce our carbon emissions by 50% (based on our 2019 carbon footprint).

We wish you a pleasant reading!

Alban-Josse & Tristan-Guirec Lepoutre

RACONTER

UNE FIERTÉ FRANÇAISE DEPUIS 1968

STORY - A French pride since 1968

Entreprise familiale créée en 1968, Clayrton's est aujourd'hui un des acteurs majeurs de l'emballage floral et festif.

Family business since 1968, Clayrton's is one of the leading players of the floral and festive market.

A la fois créateur, fabricant, distributeur d'emballages, d'accessoires pour fleuristes, ainsi que d'articles de décoration, l'entreprise rayonne sur toute l'Europe.

Idéalement implantée au cœur de l'Europe, à Roubaix dans le Nord de la France, l'entreprise Clayrton's occupe 17 000 m² d'une ancienne usine textile. Celle-ci intègre une imprimerie, les ateliers de fabrication, l'entrepôt de stockage et les bureaux de style.

En moyenne, 15 tonnes de produits finis sont chaque jour expédiées depuis ce site.

Designer, manufacturer, distributor of wrapping papers, packaging and accessories for florists, the company shines over the whole Europe.

Located in Roubaix, a city of northern France, the company occupies an area of 17.000 m² in an former textile factory. It includes a printing plant, manufacturing workshops, storage facilities and design department.

An average of 15 tons of wrapping paper is sent each day to our customers..

RESPECTER

UNE ENTREPRISE ÉCOLOGIQUE ET RESPONSABLE

RESPECT

An ecological and responsible company

Clayrton's s'inscrit profondément dans les préoccupations environnementales de son temps.

Clayrton's deeply considers the environmental challenges of its time.

Au-delà d'une production française, conservée depuis 1968, l'entreprise a misé dès les années 2000 sur la qualité des produits et s'est orientée vers une production plus propre.

Loin d'être un frein à la créativité, cette exigence a renforcé la capacité de Clayrton's à innover.

Well beyond a French production since 1968, the company took up the challenge of quality and oriented itself towards a green business. The capacity of innovation is strengthened.

PAPIER KRAFT ISSU DE FORÊTS GÉRÉES (PEFC)

Sur une année, l'utilisation de notre kraft PEFC permet de gérer durablement une forêt de 4 862 arbres. Cela équivaut à la superficie de 100 terrains de foot.

Kraft paper produced using sustainable forest management. In a year, the use of our PEFC kraft paper allows to manage a forest of 4 862 trees, sustainably. This is the equivalent to an area of 100 football fields.

chiffres 2022

AVEC LE CONCOURS DE

Après l'acquisition d'un **ÉVAPORATEUR
CONCENTRATEUR** (= réutilisation de 90 %
de nos eaux usées, soit 126 m³/an),
nous avons installé 257 panneaux solaires
sur nos toits (soit 475m²) qui produisent
90 000 Kwh/an utilisés directement
par nos machines.

After the acquisition of a concentrator
evaporator (reuse of 90 % of our wastewater,
around 126 m³/year), we installed 257 solar
panels on our roofs (i.e. 475sq. m.) that
product some 90,000 Kwh per year used
directly for our machines.

SENSIBILISATION ENVIRONNEMENTALE

Nous participons activement au concept
de «nature en ville», avec la plantation
d'arbres, l'implantation de 4 ruches, de
nichoirs, et d'un composteur sur notre site...

ENVIRONMENTAL AWARENESS

We actively participate in the concept
of «nature in the city», planting trees,
installing 4 beehives, nesting boxes,
and a composter on our site...

NOS PRODUITS ÉCO-RESPONSABLES

Un engagement sincère

Afin de satisfaire au mieux les clients, Clayrton's propose une large gamme de produits.

Historiquement, Clayrton's a proposé des emballages imprimés à base de polypropylène.

Si notre vision est claire et notre stratégie sincère, nous savons que nos actions entraînent des conséquences sur la planète.

Le plastique reste toujours du plastique même si parfois, il est extrudé avec de l'éthanol ou de la canne à sucre. Celui-ci en plus de perturber, l'approvisionnement alimentaire va in fine être incinéré ou recyclé (si les filières de recyclage existent). L'impact carbone sur la surface du globe sera toujours plus fort qu'en papier recyclé ou issu de forêts gérées.

Chez Clayrton's nous savons que nous ne sommes pas parfaits mais nous avons pris conscience de ces enjeux. Nous pensons qu'aller vers des matières papiers est le sens de l'histoire.

C'est pourquoi :

- Nous sommes certifiés PEFC depuis 2010
- Chaque année nous lançons des innovations écologiques majeures pour vous aider à être plus éco-responsables.

Aussi cette année nous étoffons notre gamme de produits respectueux avec :

- La manchette papier,
- Le kraft étanche.

A sincere commitment

In order to satisfy our Customers, Clayrton's offers a wide range of products.

Historically, Clayrton's has always offered polypropylene-based printed packaging.

But while our vision is clear and our strategy sincere, we know that our actions have consequences for the planet.

Plastic remains plastic, even if it is sometimes extruded with ethanol or sugar cane.

In addition to disrupt the food supply, it will ultimately be incinerated or recycled (and only if recycling channels are operating). The carbon impact on the Earth's surface will always be more harmful with plastic than with recycled paper or paper coming from sustainably managed forest.

At Clayrton's we know many improvements must be done, and we fully take environmental issues into consideration. We believe that moving towards paper material is the right thing to do.

That is why:

- We have been PEFC certified since 2010
 - Every year we launch major ecological innovations to help you being more eco-responsible.
- Also this year we expand our range of eco-friendly products with :*
- A paper pot-cover sleeve "Manchettes"
 - Waterproof kraft.

LES PICTOS DU CATALOGUE THE LABELS OF THE CATALOG

Ce label certifie qu'entre 50 % et 100 % du prix de revient unitaire d'un produit est français et que le produit prend ses caractéristiques essentielles en France (fabrication, le montage ou l'assemblage).

This label certifies that between 50 % to 100% of a product's cost price is french and it takes its essential characteristics in France (manufacturing, assembly...)

Nos designers étudient le cycle de vie du produit en limitant ses impacts sur l'environnement depuis l'utilisation des matières premières, leur transport, le processus de fabrication jusqu'à la fin de vie du produit.

Life cycle study to design a product in order to limit its impacts on environment since the use of raw materials, transport, manufacturing processes up to its end of life.

Contrairement aux encres à solvants, les encres à eau contiennent moins de produits chimiques. Elles sont constituées d'eau, d'additifs et de pigments. La présence d'eau complique le procédé de séchage mais sont meilleures.

Unlike solvent based inks, water based ones that we use contain much less chemicals. They are made of water, additives and pigments. The presence of water complicates the drying process but these inks are less harmful.

Les encres végétales s'obtiennent à partir de composés organiques issus des végétaux. Pour leur fabrication, on mélange des huiles végétales et des résines d'origine naturelle. Ces encres émettent peu de composés volatiles (COV) et présentent l'avantage d'être biodégradables.

Vegetal inks are made from organic compounds of plants. To manufacture them, vegetal oils and natural resins are mixed together. Like water based inks, these inks doesn't release volatile organic compounds (VOC) which are harmful to print workers and the atmosphere and they're also biodegradable.

Les produits certifiés PEFC garantissent que la ressource en bois utilisée provient de forêts gérées durablement. Les objectifs sont de limiter la déforestation et sauvegarder la biodiversité. Cette certification forestière atteste du respect des fonctions environnementales, sociétales et économiques de la forêt.

The PEFC certification ensures that the wood ressource used for products comes from sustainable managed forests. The goals are to limit deforestation, save biodiversity. This forest certification attests the respect for the environmental, societal and economic functions of the forest.

Ce label a été créé pour lutter contre la déforestation, préserver la biodiversité et les exploitants locaux. Il assure qu'un papier est produit de manière à garantir une gestion durable des forêts. Il impose un niveau de qualité initial à la forêt.

A label created to fight against deforestation, save biodiversity and preserve local owners. The paper is ensured to be made in a sustainable way for forests. This certification imposes an initial level of quality on the forests.

Une matière biosourcée est entièrement ou partiellement fabriquée à partir de matières d'origine biologique et donc renouvelables. Elles peuvent être végétales, animales ou à base d'algues.

A bio based matter is fully or partially made from renewable biological matters. It can be from vegetal, animal or algæ.

Les produits (s'ils ont été correctement triés) partiront dans un centre de collecte puis un centre de revalorisation pour pouvoir réutiliser la matière plusieurs fois.

These products (only if they have been correctly segregated) will go to a collection point and then to a revalorisation centre to reuse matter several times.

Les produits résistants à l'eau sont enduits avec une finition qui résiste à l'eau. Il se forme des gouttes sur la surface produit ; le traitement offre une protection contre les précipitations limitées, mais ne peut résister à une immersion totale.

Water resistant products are coated with a finish that resists. Water drops will cover the product surface ; they are protected against rain but can't resist to a total immersion.

Un produit est étanche si l'eau ne rentre pas ni ne sort pas du produit. Sa surface doit être complètement imperméable et doit fournir un niveau élevé de protection de l'eau quelles que soient les conditions.

A product is totally waterproof if water doesn't enter or exit the product. Its surface must be totally impermeable and provide a high protection against water at any conditions.

Les emballages portant ce logo peuvent contenir des denrées alimentaires sans nuire à la santé humaine et sans altérer la qualité du produit.

These products may contain food products without harming human health and without alter the product's quality.

Le PLA ou acide polylactique est un bioplastique, c'est-à-dire qu'il est biosourcé et biodégradable. Notre PLA est formé à partir d'amidon de maïs, il n'est pas recyclable mais il est compostable en conditions industrielles.

PLA or polylactic acid is a bioplastic, that means that it is bio based and biodegradable. Our PLA is composed from corn starch, it is not recyclable but is compostable in industrial conditions.

Le coton est une fibre végétale souple, résistante et durable composée de cellulose pure, c'est une matière facilement recyclable.

Cotton is vegetal fiber which is flexible, resistant and durable, it's composed by pure cellulose and it's a easily reusable material.

UN MANAGEMENT PORTEUR DE VALEURS

SHARING - A management with values

Partager l'envie
de progresser ensemble

To share a passion
for progress

Clayrton's a à cœur de développer son activité durablement et autour de valeurs fortes, gages de pérennité. Elle a placé la RSE (responsabilité sociale des entreprises) au centre de sa stratégie.

En interne comme en externe, l'engagement social et sociétal est une composante essentielle de cette démarche. Les salariés sont ainsi régulièrement impliqués dans des actions citoyennes et environnementales.

Clayrton's is committed to develop its business sustainably and with strong values, guarantee of durability. The company placed the CSR at the center of its strategy.

A comprehensive approach is based on social and societal commitment, both internally and externally. Employees are involved in several social and environmental actions.

LE BIEN-ÊTRE AU TRAVAIL

83% de nos collaborateurs ont participé à une enquête sur le bien-être en 2018. Il en ressort que les salariés font confiance à leur management, se sentent fiers de ce qu'ils font et apprécient les gens avec qui ils travaillent.

WELL-BEING AT WORK

In 2018, 83% of our employees have participated to a survey related to well-being at work. As a result they have expressed trust in their management team, feeling proud of the work they accomplish and having good relationships with their co-workers.

IMPLICATION PÉDAGOGIQUE

Sensibilisation des fleuristes aux enjeux du développement durable, accueil d'apprentis, visites-découverte de l'usine et ses métiers...

PEDAGOGICAL WORK

Florist's awareness about sustainable development, apprentices' reception, visits to discover the factory and its activities.

SOUTIEN DE PARCOURS PROFESSIONNELS

École de la 2e chance, Inser'croix actions en faveur de l'insertion des jeunes et des plus de 55 ans.

SUPPORTING YOUNG PROFESSIONALS
School of the 2nd Chance and Inser' Croix are partners aiming to facilitate the access to work for the youth and seniors of 55 years-old and above.

ACCOMPAGNER

LE CONCOURS QUI BOOSTE LA CRÉATIVITÉ

TO GUIDE - The contest is a creative booster

Chaque année depuis 2012, Clayrton's lance son grand concours d'emballage ouvert aux apprentis fleuristes de France, Belgique, Luxembourg et Suisse.

L'objectif est multiple : sensibiliser les élèves à l'importance de l'emballage, mettre en avant leur savoir-faire et révéler les jeunes les plus talentueux.

Les présélections se font sur clayrtons.com, sur le principe d'un vote effectué à 50 % par le public via les réseaux sociaux et à 50% par un jury professionnel.

12 finalistes s'affrontent ensuite autour d'un exercice de création lors de la grande finale nationale à Roubaix. Les 6 gagnants de la finale sont les pépites sur lesquelles Clayrton's investit pour le futur.

Every year since 2012, Clayrton's is organizing a major wrapping contest: The Clayrton's Academy. It is an event dedicated to floristry apprentices in France, Belgium, Switzerland and Luxembourg.

The main goals are to increase awareness about packaging importance among the florists, put spotlights on the creativity of the young generation, and find the most talented florists within the field of floral wrapping.

Shortlisted on clayrtons.com, the jury's ranking is strengthened by public votes through our social media. The top 12 would then compete in Roubaix at the Grand Finale.

VALORISER

LE LABEL QUI ENCOURAGE L'ÉCO-RESPONSABILITÉ

TO ENHANCE
The label encourage the eco responsibility

Proche des artisans fleuristes et de leurs attentes en matière de solutions d'emballages, Clayrton's les encourage aussi à adopter une démarche éco-responsable et à l'afficher auprès de leurs clients.

Clayrton's a lancé en 2013 le premier label « fleuriste éco-responsable » dédié aux boutiques de fleurs, avec le soutien de la Fédération Française des Artisans Fleuristes.

For strategic reasons, this ambitious project is launched in France as a first step. Clayrton's is closed to the florists and that is why the company supports them in their ecological approach.

The first label dedicated to the florists started in 2013, with the support of the French National Federation of Florists.

LES 6 ENJEUX DU LABEL : / THE 6 MAIN COMPONENTS:

RESPONSABILITÉ
Social responsibility

« Depuis notre labellisation, nos clients sont curieux de l'éco-responsabilité : ils se rendent compte que c'est possible d'être fleuriste ET soucieux de la planète »

« Since our certification, our customers are curious about eco-responsibility: they realize that it's possible to be florist AND concerned about the planet »

Stéphanie Rigaud

Gérante de la boutique Le Garden Avignon (84)

« Grâce au label, j'ai pu m'améliorer et également envisager de nouvelles actions, comme l'installation d'un composteur ou d'une toiture végétalisée ! »

« Thanks to the label I managed to improve my performance and get ready for new actions like installing a compost bin or green roof ! »

Aymeric Quiquet

Gérant de la boutique Naturalis (50)

BON À SAVOIR...

Good to know...

L'OBTENTION DU LABEL EST VALABLE POUR UNE DURÉE DE 3 ANS

The label is valid for 3 years

4 NIVEAUX DE LABELLISATION :

de 1 à 4 étoiles bronze, argent, or et platine suivant le nombre de points obtenus au référentiel

4 levels of certification

« Être fleuriste éco-responsable permet de mettre au centre la beauté du métier sans dénaturer le lien qu'il y a entre la nature et l'artisan. »

« Being an eco-responsible florist places the beauty of our mission at the heart of the bond between Nature and craftsmanship. »

Paul Quentin

Gérant de la boutique Stellaire Fleurs (59)

Label développé par Clayrton's avec le soutien de :

FÉDÉRATION FRANÇAISE
DES ARTISANS
FLEURISTES

Ce label encourage les professionnels à entreprendre des actions concrètes en prenant en compte les dimensions écologiques et sociétales.

C'est une tendance sans fioritures. Upcycling, zéro déchet...

Les lignes sont très présentes dans cette tendance : symboles de solidité et donc de durabilité, elles ont un impact visuel très rassurant.

Le beige reste une valeur sûre, du cuir à la fibre végétale en passant par la pierre, c'est une couleur qui rassure.

Toujours dans l'esprit naturel, c'est l'apparition des joyaux. Très tendances il y a quelques années, les gems, joyeux et cristaux font leur grand retour : émeraude, améthyste, jade, opale...

Ils apportent aussi de nouvelles formes plus anguleuses et cassent la monotonie des formes géométriques basiques.

It's a no-frills trend. Upcycling, zero waste...

Very present in this trend, the lines are symbols of perceptible solidity and durability and bring a reassuring visual impact.

Beige remains a safe bet, from leather to vegetable fiber to stone, it is a reassuring light color.

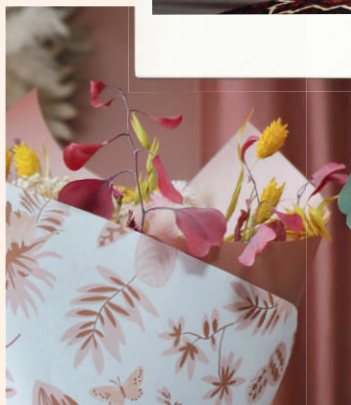

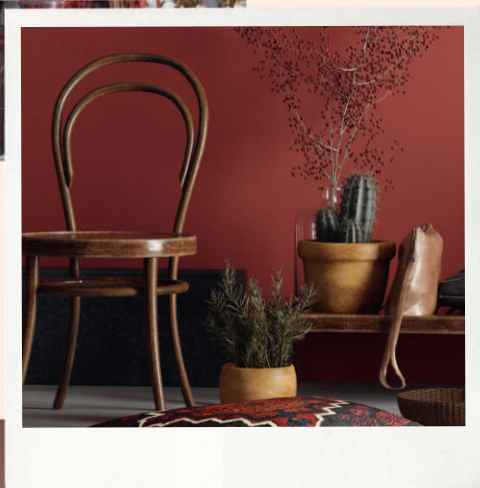

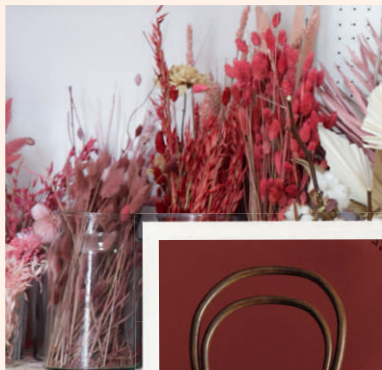

Still in a natural spirit, it is the appearance of jewels. Very trendy a few years ago, this is the gems, jewels and crystals revival : emerald, amethyst, jade, opal...

It also brings new more angular shapes and break the monotony of basic geometric forms.

Cette tendance est tournée vers la nature, un retour à l'authenticité et l'utilisation de matières plus naturelles (osier, paille, rotin, terre...).

Les motifs sont plutôt denses et entrelacés, on voit apparaître des herbiers oniriques qui affirment leur côté «haut de gamme» en redonnant du panache aux fleurs et aux plantes. La préciosité de la nature est mise en avant.

La couleur de cette tendance est le terracotta, symbole de la terre et de l'authenticité, pour des gammes éthiques et naturelles. On ajoute à cela du blanc, du beige et du crème, mélange de pureté et de rareté ainsi que des touches de sauge.

Les animaux et insectes sont mis à l'honneur. A la faveur du ralentissement de la société, les oiseaux sont devenus plus visibles et audibles, l'importance des abeilles est mise en lumière...

This trend is definitely inspired by nature, a return to authenticity and the use of more natural materials (wicker, straw, rattan, earth ...).

Patterns are dense and intertwined, dreamlike herbarium are emerging, and asserting their «upscale» side by giving back panache to flowers and plants. The preciousness of nature is put forward.

The color of the trend is terracotta, symbol of earth and authenticity, for ethical and natural ranges. We add to this white, beige and cream, a mixture of purity and rarity as well as touches of sage.

Animals and insects are honored. With the slowing down of society, birds have become more visible and audible, the importance of bees is highlighted...

GRASS PAPER

4 rolls/box

Le grasspaper est un papier constitué à 75% de fibres recyclées et à 25% de fibres d'herbe. Sa fabrication est très avantageuse d'un point de vue environnemental car aucun produit chimique n'est utilisé, ainsi que beaucoup moins d'eau et d'énergie par rapport à un papier conventionnel.

Grass Paper is made from 75% recycled fibers and 25% grass fibers. Its manufacturing is environmental friendly as it requires no chemical and much less water & energy than usual paper to be produced.

ROULEAUX KRAFT

kraft paper rolls

* pour tous les rouleaux de kraft imprimés / for all printed kraft rolls

La fabrication chez
CLAYRTON'S

d'un rouleau de kraft blanchi
émet en CO₂ l'équivalent
d'un parcours en voiture de **3,8 Km**

Une production équivalente en Chine
émet **4,7 fois plus de CO₂** (soit 17 Km)

*The CO₂ emission of a white kraft roll
made in France (at Clayrton's factory)
is equivalent to a **3,6 Km** car journey.*

*For the same product made in China,
the CO₂ emission is multiplied by **4,7**
(equivalent to a 17 km).*

BILAN
CARBONE
CARBON
FOOTPRINT

La fabrication chez CLAYRTON'S

d'un rouleau de kraft naturel résistant à l'eau
émet en CO₂ l'équivalent d'un parcours
en voiture de **2.3 Km**

Une production équivalente en Chine émet
4,6 fois plus de CO₂ (soit 10,6 Km)

*The CO₂ emission of a natural water-resistant kraft roll
made in France (at Clayrton's factory)
is equivalent to a **2.3 Km** car journey.*

*For the same product made in China,
the CO₂ emission is multiplied by **4,6**
(equivalent to a 10.6 km).*

La manchette se réinvente avec une nouvelle matière plus responsable : du papier kraft !

Particularité de cette manchette : elle est vendue en rouleau et s'utilise en déroulant la matière au fur et à mesure. Pour la fermeture, c'est tout simple il suffit de l'agrafer, pour plus de facilité d'usage.

Our historical product « Manchette », is reinvented with a new and more responsible material: kraft paper!

Special features : it is available in roll and can be used by unrolling it depending on your need. The finishing touch is made by stapling the product, making it easy to fit any sizes.
